ABOUT ME

Final-year Software Engineering undergraduate with hands-on experience in full-stack web development, AI-driven applications, and mobile app development. Proficient in React, Node.js, Python, Java, C, and C++, with practical experience building scalable, user-centered applications and RESTful APIs. Strong foundation in data structures, object-oriented programming, and software engineering principles, with a growing interest in intelligent systems and modern web technologies.

EDUCATION

Sri Lanka Technology Campus | 2022- Present

BSc (Hons) in Software Engineering

CGPA - 3.20

Gothami Balika Vidyalaya, Colombo 10 | 2020

G.C.E. Advanced Level Examination

PROJECTS

MoodMate – Empathetic Virtual Companion for Real-Time Emotional Support

Group Project | September 2024 - December2025

Tech - Python, TensorFlow, OpenCV, Flask, MongoDB, Unity

Developed a real-time emotion recognition system using CNN/RNN models for facial and voice analysis. Contributed to voice-based emotion detection, full-stack development, and UI wireframe design for an interactive virtual companion.

Sri Lankan Cricket Squad Selection Using Machine Learning

Group Project | December2024

Tech - Next.js, Python, Scikit-learn, RandomForest, Flask

Built an ML-powered web application to optimize cricket squad selection based on historical performance data. Implemented the ML model, designed REST APIs, and developed a responsive frontend with data visualizations.

LLaMA-Powered E-commerce Chatbot

Solo Project | 2025

Tech - Python, FastAPI, JavaScript, LLaMA 3, Groq API, REST APIs

recommendation chatbot using LLaMA 3 (Groq API), featuring real-time product suggestions, upsell/cross-sell logic, stock checks, and a modular, secure backend architecture.

Sri Lankan NIC Decoder Mobile Application
Solo Project | 2024
Tech -Flutter, Dart
Developed a cross-platform mobile app to decode Sri Lankan NIC numbers, featuring input validation and a clean, user-friendly interface.

SKILLS

- Programming Languages - Python, Java, C, C++, JavaScript, HTML, CSS
- Frameworks & Libraries - React.js, Node.js, Flask, TensorFlow, Scikit-learn, Pandas, OpenCV
- Databases - MongoDB, MySQL, SQLite
- Tools & Platforms - Git, GitHub, VS Code, Figma, Adobe Photoshop
- Core Knowledge - Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Software Engineering

---

VOLENTEER EXPERIENCES

- **Leo Club Of SLTC Club** *Director and Coordinator*
  - District President Appreciation– Club Coordinator, Leoistic Year 2024/25 (Leo District 306 A2– A2Con'25)
  - Most Outstanding Project Secretary First Runners-up.
  - Leo Club of SLTC, 2023/24– Directed and contributed to 10+ community projects

- **AIESEC in SLTC** *Active Member and Leadership Board Member for OGV Function*
  - Organized and led Outgoing Global Volunteer (OGV) programs, coordinating teams and ensuring successful execution.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 – Generative AI Professional
- Oracle Cloud Infrastructure 2025 – AI Foundations Associate
- Oracle Cloud Infrastructure 2025 – Certified Developer Professional
- Machine Learning & Deep Learning (Kaggle)
- UI/UX for Beginners – Great Learning
